

INDEX

A

- Abdomen, the defenseless areas of the, Crile, G. W., 620, 661
- Abortion, stimulation (Schwellenreiz), therapy in the treatment of febrile, Nussbaum, (Abst.), 453
- Adenxa, injections of turpentine in inflammation of the, Baum, F., (Abst.), 457
- treatment of inflammatory conditions of the uterine, with turpentine injections, Nystroem, B., (Abst.), 457
- treatment of inflammatory disease of the, by means of turpentine injections, Hellendall, (Abst.), 457
- turpentine injections in inflammatory diseases of the, Kronenberg, (Abst.), 457
- Adnexal diseases, treatment of, with turpentine, Seelmann, (Abst.), 456
- Adnextumors of puerperal and non-puerperal origin, treatment of pelveo-peritonitic, with injections of turpentine or milk, Stegeman, (Abst.), 455
- Alexander operation and its end results, the one-sided, Nutting, (Abst.), 578
- Alles, R. W., (with Welz, W. E.), A new measurement as an aid in diagnosis of rachitic and generally contracted pelvis, 283
- American Association of Obstetricians, Gynecologists and Abdominal Surgeons, Transactions of Thirty-fifth Annual Meeting, 188, 291, 421, 552, 655
- Amreich (with Fränkl), The histological changes incident to radium and x-ray, (Abst.), 340
- Anesthesia in abdominal pregnancy, surgical strategy as an adjunct to local, Farr, R. E., 624, 661
- Arey, L. B., The cause of tubal pregnancy, and tubal twinning, 163

B

- Babcock, W. W., Transplantation of the cervix, 380, 424
- Bagg, H. J., (See Bailey and Bagg), 461
- Bagley, A modification of the Baldy-Webster operation, (Abst.), 578
- Bailey, Harold, (with Bagg, H. J.), Effects of Irradiation on fetal development, 461
- Consideration of the causes of still-birth and neonatal death, 563
- Bainbridge, W. S., Double salpingo-oophorectomy with partial auto-ovarian transplantation, followed by twelve years of menstruation, a normal pregnancy and an uncomplicated menopause at fifty-one years of age, 379, 423
- Transplantation of human ovaries; present status and future possibilities, 493, 558
- Le Problème du Cancer, (Book Review), 460
- Baldwin, J. F., The surgical treatment of certain puerperal infections, 499
- The artery of the uterine round ligament, (Abst.), 576
- Baldy-Webster operation, intestinal obstruction following the, Richardson, (Abst.), 579
- a modification of the, Bagley, (Abst.), 578
- Barcat, Radiumtherapy in uterine cancer, (Abst.), 335
- Bartholomew, R. A., Report of a case of labor complicated by ovarian cyst and small-pox. Operation: Spontaneous delivery: Recovery, 168
- Bauch, Cesarean section upon the dead and dying patient in eclampsia, (Abst.), 107
- Baum, F., Injections of turpentine in inflammation of adnexa, (Abst.), 457
- Beach, R. M., Atresia of the uterus, 194
- Bell, B., The sterilization of infection incurred before cesarean section is performed, (Abst.), 107
- Benthin, Experiences with roentgen and radium therapy, (Abst.), 342.
- Berkley, Cesarean and radical hysterectomy following the application of radium, (Abst.), 219
- Bill, A. H., Should pubiotomy be recognized as a justifiable operation in obstetrics? 258, 301
- Bishop, E., Prolonged ante- and post-partum toxemia of pregnancy with recovery, 307
- Blacker, The limitations of cesarean section, (Abst.), 215

- Bladder surgery in relation to the fourth era of surgery, Morris, R. T., 392, 431
- Blair, A. C., A case of placenta previa centralis with spontaneous delivery of the child, (Abst.), 692
- Bochenski, K., Colloids and non-specific proteins in gynecology and obstetrics, (Abst.), 456
- Boldt, Herman J., Modified interposition operation originally devised by Christian Kielland, Christiania, Norway, 677
- Book Reviews:
- Obstetrical nursing, Carolyn C. Van Blarecom, 224
 - Diseases of women, Harry S. Crossen, 459
 - X-ray dosage in treatment of radiography, W. D. Witherbee and John Remer, 459
 - A manual of obstetrical nursing, N. E. Cadmus, 460
 - La probl me du cancer, W. S. Bainbridge, 460
 - The healthy child from two to seven, F. H. MacCarthy, 460
- Brash, The relation of the ureters to the vagina, (Abst.), 577
- Breast, a clinical consideration of tumors of the, J. F. Erdmann, 116, 188
- Briggs, A. P., (with Krebs, O. S.), Blood studies in normal pregnancies, 67, 98
- Bride, Cesarean section in Manchester, (Abst.), 105
- Brodhead, G. L., Report of two cases of obstetric sepsis, 548
(with Langrock) Placenta previa, an analysis of one hundred cases, (Abst.), 691
- Brouha, M., Concerning the treatment of placenta previa by abdominal hysterectomy, (Abst.), 691
- Must abdominal cesarean section be reserved for the clean case? (Abst.), 106
- Broun, LeRoy, Ovarian papilloma with secondary involvement of the abdominal wall 18 years after subtotal hysterectomy for fibroid with retention of adnexa, 439
- Carcinoma of the cervix uteri 12 years after subtotal hysterectomy for double adnexal disease in a nullipara, 440
- Brown, G. Van A. (With Catherine Corbeille), Observations with comments on a study of the urinary tract of eight fetuses and young infants, 358, 430
- Bullard, Gynecological backache, (Abst.), 575
- Burrows, The treatment of advanced carcinoma of the cervix of the uterus by radium, (Abst.), 335
- Burrows, A., The problem of the radium therapy of cancer, (Abst.), 334
- C
- Cadmus, N. E., A manual of obstetrical nursing, (Book Review), 460
- Cameron, S. J., Cesarean section, (Abst.), 217
- Cancer, experience with radiation for cervical, and subsequent operation, Mayer, (Abst.), 335
- folliculoid, of the ovary, Robinson, M. P., 581
 - of the female genito-urinary organs, irradiation in, Keene (with Clark), (Abst.), 336
 - of the uterus, the treatment of, with radium, Frank, (Abst.), 335
 - radium therapy in uterine, Bercat, (Abst.), 335
 - the present position of radium in the study and treatment of uterine, Stone, (Abst.), 336
 - the problem of the radium therapy of, Burrows, A., (Abst.), 334
 - the treatment of cervico-uterine, by hysterectomy following radiotherapy, Monod, (Abst.), 334
 - uterine, remarks on radium therapy in, Pinch, (Abst.), 337
- Carcinoma, in a woman twenty-nine years of age, an unusual type of, Arthur Stein, 539, 560
- of the cervix of the uterus, treatment of, by radium, Burrows, (Abst.), 335
 - uterine, shall we operate or radiate in? K stner, (Abst.), 338
- Casein therapy, experiences with, Weinzierl, (Abst.), 455
- Caseosan, paralysis of accommodation after injection of, Massur (with Sklarz), (Abst.), 455
- Cervix, a clinical and pathological study of the nonsurgical, Gibson, G., 202
- double adnexal disease in a nullipara, Broun, LeRoy, 440
 - surgical, what constitutes the, Polak, J. O., (with Phelan, G. W.), 640, 666
 - the, a focal point of infection, Dickinson, G. K., 124, 191
 - transplantation of the, Babcock, W. W., 380, 424
- Cesarean section, abdominal, Martius, H., (Abst.), 218
- obstetrical future of women after, Couvelaire, (Abst.), 219
 - administration of anesthetics in, Gandy, (Abst.), 103

Cesarean section—Cont'd

- a clinical and anatomical study of fifty-one cases of repeated, with special reference to the healing of the cicatrix and to the occurrence of rupture through it, Gamble, T. O., (Abst.), 221
- a critical analysis of twenty-one years' experience with, J. W. Williams, (Abst.), 105
- and its indications in modern obstetrics, Henkel, M., (Abst.), 109
- a plea for the more frequent use of, Jones, A., (Abst.), 110
- Cameron, S. J., (Abst.), 217
- conservative, the lower uterine segment in, Kerr, M., (Abst.), 217
- following Coffey plication of the round and broad ligaments, Pfeiffer, W., 198
- in a case of prolapsed cord, Paton, J., (Abst.), 216
- indications for, Kerr, M., (Abst.), 108
- in Manchester, Bride, (Abst.), 105
- in the treatment of placenta previa, Whitehouse, (Abst.), 692
- methods of performing, Holland, E., (Abst.), 216
- must abdominal be reserved for the clean case? Brouha, (Abst.), 106
- normal deliveries following, Villarama, (Abst.), 219
- "once a, always a cesarean section," an untruth, Greenhill, J. P., 86
- operative obstetrics referring to the abuse of, the present status of, Polak, J. O., (Abst.), 222
- performed in Great Britain and Ireland from the years 1911 to 1920 inclusive, results of a collective investigation into, Holland, E., (Abst.), 104
- radical hysterectomy following the application of radium, Berkley, (Abst.), 219
- rupture of, in subsequent pregnancy or labor, Holland, E., (Abst.), 220
- scar, hernia in, Ichenhauser, (Abst.), 221
- terminated by supravaginal hysterectomy, a study of the results obtained in sixty-four, Harris, (Abst.), 106
- the limitations of, Blacker, (Abst.), 215
- the justification of abdominal, in the treatment of placenta previa, v. Jasche, R. T., (Abst.), 110, 221
- the sterilization of infection incurred before, is performed, Bell, B., (Abst.), 107

Cesarean section—Cont'd

- transperitoneal, Copeland, (Abst.), 218
- upon the dead and dying patient in eclampsia, Bauch, (Abst.), 107
- with special reference to present day indications for operation, Taylor, C. J. G., (Abst.), 109
- Chorioepithelioma malignum, cure of a case of, by roentgen rays, Naujoks, H., (Abst.), 339
